ABSTRACT

The health and learning potential of Colorado's children are enhanced by the nutritional benefits of several programs. The National School Lunch Program (NSLP) is the oldest and largest. Unfortunately, 1980-81 budget cuts, price increases, and other factors caused a decrease in participation of over 40,000 children a day from the 1980 figure of 277,000 children a day. The trend shows increasing participation since the budget cuts in 1980-81, and the School Breakfast Program (SBP) reached an all-time high of over 28,000 breakfasts a day in 1991. Other programs include the Special Milk Program (SMP) for children without access to the NSLP or SBP, the Summer Food Service Program for Children, and the Nutrition Education and Training Program for teachers, students, food service personnel, and parents. In this booklet, a description of Colorado's child nutrition programs is followed by a presentation of statewide data on average meal prices, average per plate costs, trends in students served, donated commodities, and economic impact. The bulk of the report consists of tables presenting data for the state's school districts that are grouped according to setting: core city, Denver Metro, urban/suburban, outlying city, outlying town, recreational, rural, and small attendance. The tables indicate: (1) district membership; (2) average daily lunch participation; (3) total percentage of children participating; (4) number of schools providing lunch, breakfast, and SMP; (5) number of sites with kitchens and walk-in or carry-out provisions; (6) breakfast and lunch prices for elementary, middle, junior high, and high schools, and for adults; (7) costs included in per plate costs; and (8) other information. DESCRIPTION OF PROGRAMS

The health and learning potential of Colorado's children are enhanced as they enjoy nutritional benefits of Child Nutrition programs. More than **48 million meals** are served annually in the National School Lunch Program, School Breakfast Program, Special Milk Program, and Summer Food Service Program for Children.

The ***National School Lunch Program*** (NSLP) is the oldest and largest of the Child Nutrition programs. It provides financial assistance and United States Department of Agriculture donated foods to support the infrastructure of the program. Additional reimbursement is provided for each lunch served free or at a reduced price to eligible children. Since **1946**, the National School Lunch Program has made it possible for schools to serve appealing lunches designed to meet the nutritional needs of children. These meals make an important dietary contribution by providing approximately one-third of the Recommended Daily Allowance vital to a child's mental and physical development.

Several studies have indicated that a child's ability to learn and perform academically is hindered by the lack of an adequate breakfast. The ***School Breakfast Program*** provides a nutritious morning meal. The program offers financial assistance similar to the NSLP. The meal pattern is designed to provide 25-33 percent of the child's Recommended Daily Allowance.

The ***Special Milk Program*** encourages children to drink milk who do not have access to the National School Lunch Program or School Breakfast Program. This includes pre-school and kindergarten children attending split-session school; children attending schools that do not participate in the other programs; or children attending summer or year-round camps.

The ***Summer Food Service Program for Children*** (SFSPC) provides nutritious meals to more than 12,000 children during the summer months. Programs are operated by public and private nonprofit schools, public or private nonprofit residential summer camps, and by units of government. Sponsors receive financial assistance, USDA donated foods, and are reimbursed for up to four meals a day.

In support of these valuable program goals, the ***Nutrition Education and Training Program*** (NET) provides nutrition training for teachers, students, food service personnel, and parents. Nutrition education audiovisuals are available, as well as nutrition education curriculums for various grade levels. In-service workshops for teachers and classroom presentations for students emphasize current nutrition topics and blend nutrition education with other subject areas. Workshops provide intensive classroom and hands-on training opportunities for food service professionals throughout the state.

Program Scope

The average cost of producing a lunch is $1.63. The average price for a lunch at the elementary level is only 95 cents, and is clearly a nutritional bargain.

The popularity of breakfast has increased dramatically in the past few years, providing more children the opportunity for a nutritious start to their school day.

AVERAGE MEAL PRICES IN COLORADO

LEVEL	LUNCH	BREAKFAST
ELEMENTARY	$ .95	$ .50
MIDDLE	$1.20	$ .55
JUNIOR	$1.05	$ .55
SENIOR HIGH	$1.15	$ .60
ADULT	$1.65	$ .95

(Rounded Average, 1991-92)

AVERAGE PER PLATE COST TO PRODUCE

COST AREA	LUNCH	BREAKFAST
FOOD AND MILK	$ .56	$ .35
LABOR	$ .78	$ .16
NONFOOD	$ .05	$ .02
OTHER DIRECT	$ .10	$ .01
INDIRECT	$ .14	$ .03
TOTAL	$1.63	$ .57

1990-91

Program Scope
(continued)

Participation in the lunch program was severely affected by the 1980-81 budget-cutting measures. Prior to that time, Colorado enjoyed a participation in excess of 277,000 lunches per day. Resulting price increases and schools dropping from the program caused a decrease in participation of over 40,000 children per day. While the trend shows increasing participation since the budget cuts, pre-1981 levels have yet to be recovered. This is especially apparent in the reduced price category, where the cost rose from 10 cents to 40 cents.

Recent funding increases, outreach efforts, and meal pattern improvements have helped the School Breakfast program reach an all-time high of over 28,000 breakfasts per day. More than 400 schools are offering the program, recognizing its financial viability and contribution to the nutritional and educational well-being of children.

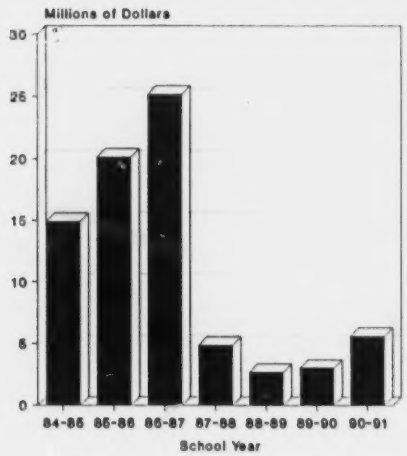
OCTOBER 1991

USDA Donated Commodities

The level of USDA donated commodities purchased from Colorado ranchers and farmers has shown a disturbing drop in recent years, from $25.1 million in 1987, to a low of $3 million in 1990. The cutback in the purchase of "bonus" commodities nationwide is having a detrimental affect on food service budgets, as these foods had provided nearly 10 cents in added value to each lunch.

COLORADO COMMODITIES
PURCHASED FOR NATIONAL DISTRIBUTION



COLORADO COMMODITIES
PURCHASED FOR NATIONAL DISTRIBUTION

COMMODITY	VALUE

TOTAL	$ 5,620,744

1990-91

Economic Impact

Child Nutrition programs have a major economic impact, nationally and in Colorado. Nearly $40 million in federal reimbursement flows to Colorado school districts annually. These programs generate nearly $100 million in business each year, and employ over 3,000 school food service professionals.

ANNUAL DOLLAR IMPACT ON COLORADO ECONOMY
